Screven County

(The entire 1850 Screven County census is out of order on the microfilm. The page numbers run correctly but the households do not run in order. If you view this census year, you will have to search for the correct next page. Example: Meredith Poythress is HH 544 at the bottom of page **69** . On page 70 it has a Josephine Smith who looks like she should be part of Meredith's HH but the HH directly below her name is HH 512, thus way out of order. The next HH should be HH 545. That is how Ruthy was previously recorded as being in the HH of an Elizabeth Best, when in fact she should not have been. The HH directly after Ruthy on page **75** is HH 545, so she is actually living in the HH of her parents Meredith and Susan Maner Poythress. This genealogical nightmare, will only matter if the person you are searching, starts at the bottom of a page and continues at the top of another page. I chose to use the handwritten page number because it makes it easier to locate these Poythresses.)
